A FAMILY RUN COMPANY SINCE 2003

Welcome
to

Since 2003, we have provided an alternative to the Building Control Service which is offered by the Local Authority.

We have been involved with over 20,000 projects, with the vast majority being located in and around the Cambridge area.

The projects have been and continue to be wide ranging. We undertake small domestic projects through to multi-storey offices, schools, colleges, laboratories and R&D facilities.

Providing guidance, achieving goals

Our objective is to provide the entire construction team with an open book approach to Building Control matters.

This means that we actively try to be involved with projects as early as possible in order that we can provide relevant guidance.

Our business has been family run since its inception, we are therefore very focused upon our personnel and providing them with the best opportunities to progress. All surveying staff are focused upon achieving Chartered membership within a recognised Association and all have pathways which will enable them to achieve this goal.

The pathways vary from NVQs through to relevant Degrees in the Building Control Sector.

Focused upon innovation

As a company, we are also very focused upon innovation within our sector, this has led to the introduction of our BCMS (Building Control Management System).

The system takes the management of projects to a whole new level including the ability for the construction team to log in and obtain an overview of their projects and see real time progress.

Regardless of the size of your project, our team is always on hand to offer advice in relation to the Building Control Regulations. You are welcome to visit us at our office in Waterbeach or we can arrange a suitable time to meet you on-site.
