At Roma Finance, we absolutely #lovetolend and work with our brokers and partners to provide the 'Borrower First' lending experience to landlords, developers and investors for the purpose of adding value to property investments.

We are delighted to introduce our new solutions range designed to provide borrowers with an end to end solution on their property projects.

RomaFLOW

RomaFLOW encompasses our bridging range including auction, refurbishment and below market value.

RomaFLOW is a speedy process with 80% of cases completing within 28 days. It is a quick and hassle free process with a dedicated underwriting team.

It allows borrowers to purchase property quickly and/or complete light works.

Roma's bridging range also includes commercial and semi-commercial options as well as a developer exit solution for those wind and watertight projects.

RomaGROW

Introducing Commercial Development Finance!

RomaGROW is the next step in the property journey, designed for those looking at medium and heavy refurbishment projects and full ground up developments, **now including commercial!**

Roma has a 'specialist' underwriting team focussed solely on development cases.

RomaGROW products are designed for those looking to spend more than 50% of a property's value on works to improve it or create new.

RomaPRO

RomaPRO is the term range from Roma, allowing borrowers to build their property portfolios.

A borrower can take a project from initial purchase, refurbishment or development straight onto a buy-to-let mortgage - so no need to worry about the exit! It is also part of the FLOW process meaning it is super quick!

The brand new RCF, is a flexible facility for property investors, secured against their existing property portfolio. This means they can purchase new properties using a drawdown style facility with ease.

Customer for Life: The end to end experience

The Headlines

Loan Amount: £1.42 million

LTV: 65%

CMV: £2.2 million

Exit Route: RomaPRO Refinance

Roma Finance can now offer comprehensive lending solutions to property developers, investors and landlords, using the **FLOW**, **GROW** and **PRO** ranges.

All products can, of course, be used as stand alone solutions, but now, with the introduction of RomaPRO, we can take a broker and borrower through bridging and development lending onto a term product when the asset becomes income producing. The equity can be taken out of the property on the term loan and used towards the next property project in their journey.

In this case, Roma was approached by our broker partner to support a borrower who needed a full end to end lending solution.

This borrower had already completed a number of projects with Roma and is a highly experienced property investor with a vast income generating portfolio. They also have refurbishment and development experience.

In this particular project, which encompassed two properties, the borrower was looking to repay another lender with a bridge, achieving 100% of the purchase price. Roma was able to do this with additional security. The properties, both based in East Sussex, then underwent a full refurbishment project, funded by the borrower.

On completion, the properties were to be added to the already significant portfolio and Roma was able to redeem the bridging finance granted onto a 5 year buy-to-let loan. The equity was released and used as a deposit for the borrower's next project.

#LovetoLend
